* All of my grandchildren (ages 3-14) have met & played with NOVA. She is great with kids.

I looked after Nova for 10 days I have had big dogs over the past number of years. Nova is NOT an aggressive dog. She, in fact, is your typical young pet. She is very loveable and obedient. To have her labled as an aggressive dog is an injustice.

I have had the pleasure of knowing Nova for almost a year. She and my dog, Ivy, play together on a daily basis. She is not aggressive and, in fact, is the exact opposite she has, on many occasions been quite submissive. She and Ivy really enjoy each others company and are very good companions. To have this dog wear a muzzle is not required and is an injustice. She is not aggressive and is a friendly loveable dog.
